

TWO MISSOURI POLICE OFFICERS ARE HONORED WITH SPECIALLY ADAPTED SMART HOMES ON THE 18TH ANNIVERSARY OF THE 9/11 TERRORIST ATTACKS

“As part of the Gary Sinise Foundation Restoring Independence and Supporting Empowerment (R.I.S.E.) program, we’re proud to announce the latest recipients of a future specially adapted smart home.

Retired police officers Mathew Crosby of the Rock Hill Police Department in St. Louis and Ryan O’Connor of the Arnold Police Department in Jefferson County whose sacrifices made in the line of duty while serving their respective communities permanently changed the course of their life and that of their family.

Officers Crosby and O’Connor can look forward to a more comfortable recovery and rehabilitation process in 100% mortgage-free homes that uniquely suit their mobility and daily life needs all while fostering greater independence.”

Shubert Design is a proud partner of the R.I.S.E. program. By donating both interior design services and furniture they play an instrumental role in creating these beautiful and functional homes for the recipients and family. Designer Judy McDaniel will be working with Mathew Crosby’s family and Designer Tomi Jarvis will be working with Ryan O’Connor’s family on these projects.
